Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. All previously submitted claims have been cancelled and newly submitted claims 43-67 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The original claims 1 through 42 were directed towards methods for displaying an advertisement on or adjacent to a beverage dispenser, and how such advertising affects the cost of the beverage dispenser. However, newly amended claims 43-67 are directed towards a beverage dispenser itself and no advertisements are being displayed. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 43-67 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03
